

Name: *Morgan Hodge*

MyCOMP3015 CW1 submission fulfils the conditions to pass:

Software compiles using given framework.	Yes
My submission has a unique model in the scene.	Model source: https://www.turbosquid.com/3d-models/nuka-cola-can-1338119
Git, write up and video explanation submitted	<i>Filenames: README.md</i> <i>Youtube:</i> https://youtu.be/Fvy_i1Z4Yjc <i>Git repo:</i> https://github.com/Mdot5596/NukaCola-OpenGL-Scene
By submitting this form, I acknowledge the following submission is entirely my own work	Yes

My project has the following features

Feature	Description	Category	Marks	Checklist (Cross the ones that are NA)
<i>BlinnPhong Lighting</i>	<i>I have implemented BlinnPhong in my fragment shader.</i> <i>Verified.</i>	<i>Basic – basic lighting</i>	5	<u><i>Video</i></u>
<i>Textures</i>	<i>I have done basic texture sampling for my model</i> <i>Verified.</i>	<i>Basic – basic textures</i>	2.5	<u><i>Report/ Video</i></u>
<i>Fog</i>	<i>I have implemented fog onto the scene</i> <i>Verified.</i>	<i>Basic – Lighting subtechnique</i>	2.5	<u><i>Video</i></u>
<i>Spotlight</i>	<i>I have implemented a rotating spotlight</i> <i>Verified.</i>	<i>Basic – Lighting subtechnique</i>	2.5	<u><i>Video</i></u>
<i>Mixing</i>	<i>I have used mixing to blend the nukacan texture with a moss texture I found online to create a dirty/mouldy can</i> <i>Verified.</i>	<i>Basic - Texturing Subtechniques</i>	2.5	<u><i>Video</i></u>
<i>Skybox</i>	<i>I have a skybox implemented using skybox.png and skybox hdr files</i> <i>Verified.</i>	<i>Basic - skybox</i>	2.5	<u><i>Report/ Video</i></u>
<i>Animation controls</i>	<i>My scene has keyboard and mouse controls</i> <i>Verified.</i>	<i>Advanced</i>	5	<u><i>Report/ Video</i></u>
<i>Aesthetics</i>	<i>My scene follows the fallout aesthetic, a fallout “nukacola” can, a foggy apocalyptic atmosphere, a wasteland green skybox, a mixed nukacola texture that makes it look even more old, and fallout music</i> <i>I'll place the aesthetics score below with the comments.</i>	<i>Advanced</i>	7	<u><i>Report/ Video</i></u>

Basic Features	20	<u>17.5</u>	
Passing Marks	40	<u>40</u>	
Advanced Features	10	<u>5</u>	
Research/Gamification	20	<u>0</u>	
Aesthetics (module leader)	10	<u>6</u>	
Total		<u>68.5</u>	

*By submitting this form I acknowledge all the information claimed to be true.

Comments:

Aesthetics is ok, could be better. The skybox cube is very visible, so a better skybox texture should be considered. The rest of the scene seems rather plain, with just textures to fill convey complexity of the scene. But the rest seem quite simplistic.

The rest of the work is solid. Good lighting, proper use of texture mixture, animation controls, all add value to the scene. Report and video also does well to convey the work done.

I hope CW2 has more features. I think the scene needs a bit more items to make the context of the scene more complex.
